#### INDEPENDENT AUDITOR'S REPORT

To the City Council City of Guyton, Georgia

### Report on the Audit of the Financial Statements

### **Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Guyton, Georgia, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the City of Guyton, Georgia's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and aggregate remaining fund information of the City of Guyton, Georgia, as of June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Guyton, Georgia, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Guyton, Georgia's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Guyton, Georgia's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Guyton, Georgia's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on page 38, and the Schedule of Changes in the Net Pension Liability and Related Ratios and the Schedule of Contributions on pages 40 and 41 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and

comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by the missing information.

### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Guyton, Georgia's basic financial statements. The accompanying combining nonmajor fund financial statements, schedule of projects paid with special sales tax proceeds, and schedule of projects paid with transportation special purpose local option sales tax proceeds are presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements, schedule of projects paid with special sales tax proceeds, and schedule of projects paid with transportation special purpose local option sales tax proceeds are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 30, 2022 on our consideration of the City of Guyton, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Guyton, Georgia's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Guyton, Georgia's internal control over financial reporting and compliance.

Lanier, Deal + Protor

Statesboro, Georgia December 30, 2022

## City of Guyton, Georgia Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position June 30, 2022

Total governmental fund balances			\$	3,682,807
Amounts reported for governmental activities in the statement of net position are different because:				
Property tax revenues are deferred in the governmental funds because they are not available but they are reported as revenue in the statement of activities.				14,519
Capital assets used in governmental activities are not financial resources and are therefore not reported in the funds. However, in the statement of net position the cost of these assets are capitalized and expensed over their estimated lives through annual depreciation expense.  Cost of capital assets	\$	5,279,388		
Less accumulated depreciation	Ť	(2,200,057)		3,079,331
Net pension asset in governmental activities is not an available financial resource and is therefore not reported in the funds. However, it is recognized as an asset in the statement of net position.				169,521
The deferred outflows of resources below are not current assets or financial resources and the deferred inflows resources are not due and payable in the current period and therefore are not reported in the governmental funds. Balances at June 30, 2022, are:				
Deferred outflows  Deferred inflows				39,285 (92,431)
Liabilities, including notes and compensated absences payable, are not due and payable in the current period and therefore are not reported in the funds.				
Accrued interest payable		665

#### City of Guyton, Georgia

### Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities For the Year Ended June 30, 2022

Net change in fund balances - total governmental funds			\$	428,817
Amounts reported for governmental activities in the statement of activities are different because:				
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capitalized capital outlays exceeded depreciation expense in the current period.	\$	(192 122)		
Depreciation expense Capital outlay	Þ	(182,122) 1,169,524		987,402
Property taxes in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.				
Deferred at 06/30/2022	\$	14,519		
Deferred at 06/30/2021	Ψ.	(13,017)		1,502
The issuance of long-term debt (e.g., notes payable) provides current financial resources to the governmental funds, but the receipt of proceeds from long-term debt increases long-term liabilities in the statement of net assets.				(1,316,634)
Repayment of general obligation debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.				254,675
Repayment of lease liability is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.				4,112
Interest expense on long-term debt reported in the statement of activities does not require the use of current financial resources and therefore is not reported as expenditures in governmental funds.				
Liability at 06/30/2022	\$	(665)

### Note 1 - Summary of Significant Accounting Policies

The City of Guyton, Georgia (the City) was incorporated under the provisions of Georgia law in 1887. The City operates under a Council-Manager form of government and provides the following services as authorized by its charter: public safety (police and fire), streets and lanes, sanitation, planning and zoning, water and sewer, and various administrative services.

The City's financial statements are prepared in accordance with generally accepted accounting principles applicable to governments (GAAP). The Government Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the City are discussed below.

### Reporting Entity

The reporting entity is comprised of the primary government and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the City consists of all funds, departments, boards and agencies that are not legally separate from the City.

The City has no component units and there are no organizations which have been excluded from the reporting entity.

#### **Basis of Presentation**

The City's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements - The government-wide financial statements include the statement of net position and the statement of activities. These statements report financial information for the City as a whole. The primary government is presented separately within these financial statements with the focus on the primary government. Individual funds are not displayed but the statements distinguish governmental activities, generally supported by taxes and grants and the City's general revenues, from business-type activities, generally financed in whole or in part with fees charged to external customers.

The statement of net position presents the financial position of the governmental and business-type activities of the City at year end.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the City's governmental activities and for each identifiable activity of the business-type activities of the City. Direct expenses are those that are specifically associated with a function and therefore clearly identifiable to that particular function. The City does not allocate indirect expenses to functions in the statement of activities.

### Note 1 - Summary of Significant Accounting Policies (continued)

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees and other charges to users of the City's services; and (2) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. For identifying to which function program revenue pertains, the determining factor for charges for services is which function generates the revenue. For grants and contributions, the determining factor is to which function the revenues are restricted.

Other revenue sources not properly included with program revenues are reported as general revenues of the City. The comparison of direct expenses with program revenues identifies the extent to which each governmental function and each identifiable business activity is self-financing or draws from the general revenues of the City.

**Fund Financial Statements** - During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. Fund financial statements are provided for governmental and proprietary funds.

Major individual governmental and enterprise funds are reported in separate columns on the fund statements.

**Fund Accounting** - The City uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The City uses two categories of funds: governmental and proprietary.

Governmental Funds - Government funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Fund liabilities are assigned to the fund from which they will be liquidated. The City reports the difference between governmental fund assets and liabilities as fund balance. The following are the City's major governmental funds:

**The General Fund** – The general fund accounts for all financial resources except those required to be accounted for in another fund. The general fund's fund balance is available to the City for any purpose provided it is expended or transferred according to the general laws of Georgia.

*The SPLOST Capital Projects Fund* – This fund is used to account for financial resources to be used for the acquisition or construction of capital projects under the Special Local Option Sales Tax referendum.

*The TSPLOST Capital Projects Fund* — This fund is used to account for financial resources to be used for the acquisition or construction of transportation capital projects under the Transportation Special Local Option Sales Tax referendum.

### Note 1 - Summary of Significant Accounting Policies (continued)

**Proprietary Funds** - Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. The proprietary funds are classified as enterprise funds. The following is the City's major enterprise fund:

*Water and Sewer Fund* – This fund is used to account for the construction of facilities and operation of activities involved in providing water and sewer services to City residents.

### Measurement Focus

Government-wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the City are included on the statement of net position. The statement of activities reports revenues and expenses.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus on both financial reporting levels. All assets and all liabilities associated with the operation of these funds are included on the statements of net position. The statements of changes in fund net position present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

#### **Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. At the fund reporting level, the governmental funds use the modified accrual basis of accounting. Proprietary funds use the accrual basis of accounting at both reporting levels. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred outflows and inflows of resources, and in the presentation of expenses versus expenditures.

(The remainder of this page is intentionally left blank.)

### Note 1 - Summary of Significant Accounting Policies (continued)

**Revenues** – **Exchange Transactions** - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the City, the phrase "available for exchange transactions" means expected to be received within 60 days of year-end.

Revenues - Non-exchange Transactions - Non-exchange transactions in which the City receives value without directly giving equal value in return, include sales taxes, property taxes, grants and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the taxable sale takes place. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions also must be available (i.e., collected within 60 days) before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be susceptible to accrual: property taxes, sales taxes, interest and federal and state grants.

*Unearned Revenue* - Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

On both the government-fund financial statements and the government-wide financial statements, revenues are deferred for grants and entitlements received before the eligibility requirements are met (e.g., cash advances).

**Expenses/Expenditures** - On the accrual basis of accounting, expenses are recognized at the time they are incurred. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due, if measurable.

#### Assets, Liabilities and Fund Equity

*Cash, Cash Equivalents* - Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the City.

(The remainder of this page is intentionally left blank.)

### Note 1 - Summary of Significant Accounting Policies (continued)

*Investments* - Investments are stated at fair value based on quoted market prices.

Georgia law authorizes the City to invest in the following type of obligations:

- Obligations of the State of Georgia or of any other states
- Obligations of the United States Government
- Obligations fully insured or guaranteed by the United States Government or Government agency
- Obligations of any corporation of the United States Government
- Prime bankers' acceptances
- The State of Georgia local government investment pool (i.e., Georgia Fund I)
- Repurchase agreements
- Obligations of the other political subdivisions of the State of Georgia

**Receivables** - All trade and property tax receivables are reported net of an allowance for uncollectibles, where applicable. Unbilled water, sewer and garbage collection charges are accrued as receivables and revenue at June 30, 2022. The general fund and water and sewer enterprise fund reported an allowance of \$16,852 and \$84,282, respectively, at June 30, 2022.

Interfund Balances - On the fund financial statements, receivables and payables resulting from short term interfund loans are classified as "interfund receivables/interfund payables." These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are reclassified and presented as internal balances.

**Prepaid Items** - Payments made to vendors for services that will benefit periods beyond June 30, 2022, are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed.

Capital Assets - General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in governmental funds. The City reports these assets in the governmental activities column of the government-wide statement of net position but does not report these assets in the governmental fund financial statements. Capital assets utilized by enterprise funds are reported both in the business-type activities column of the government-wide statement of net position and in the enterprise funds' statement of net position.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of five thousand dollars or at mangement's discretion for items less than this threshold. The City's infrastructure consists of roads, bridges, water lines and sewer lines. Improvements to capital assets are capitalized. The City has capitalized only those infrastructure costs incurred in the years subsequent to June 30, 2003. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed.

### Note 1 - Summary of Significant Accounting Policies (continued)

All reported capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

	Estimated U	Jseful Lives
Asset Class	Governmental Activities	Business-type Activities
Buildings and improvements	30-50 Years	
Machinery and equipment	5-10 years	7-10 Years
Intangible right to use lease equipment	5 Years	5 Years
Furniture and fixtures	5 Years	
Office equipment	5 Years	
Vehicles	5-8 Years	5 Years
Infrastructure	3-10 Years	
Water System		50 Years
Sewer collection system		50 Years

**Compensated Absences** - Vacation benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

All compensated absence liabilities include salary-related payments, where applicable.

The total compensated absence liability is reported on the government-wide financial statements. The proprietary fund reports total compensated absence liability at the fund level, if applicable. Governmental funds report compensated absence liability at the fund reporting level only "when due."

**Accrued Liabilities and Long-term Obligations** - All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of these funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are "due for payment" during the current year. Leases payable are recognized as a liability in the governmental fund financial statements when due.

**Debt Premiums, Discounts and Issuance Costs** - On the government-wide statement of net position and the proprietary fund type statement of net position, bond premiums and discounts are netted against bonds payable. On the government-wide and proprietary fund type statement of activities, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method.

### Note 1 - Summary of Significant Accounting Policies (continued)

Bond issuance costs are recognized as an outflow of resources in the reporting period in which they are incurred.

At the governmental fund reporting level, bond premiums and discounts are reported as other financing sources and uses, separately from the face amount of the bonds issued. Bond issuance costs are reported as expenditures.

**Fund Equity** - Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

**Fund Balance** – Generally, fund balance represents the difference between the current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

Nonspendable fund balance - amounts that are not in spendable form (such as prepaid items) or are required to be maintained intact.

Restricted fund balance - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government) through constitutional provisions, or by enabling legislation.

Committed fund balance - amounts constrained to specific purposes by the City itself, using its highest level of decision-making authority (i.e. the City Council). To be reported as committed, amounts cannot be used for any other purposes unless the City takes the same highest level action to remove or change the constraint.

Assigned fund balance - amounts the City intends to use for a specific purpose. Intent can be expressed by the City or by an official or body to which the City Council delegates the authority.

*Unassigned fund balance* - amounts that are available for any purpose. Positive amounts are reported only in the general fund.

Fund Balance Flow Assumptions - It is the City's policy to consider restricted fund balance to have been used before any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, it is the City's policy to use fund balance in the following order: committed, assigned and then unassigned.

**Net Position** - Net position represents the difference between assets and liabilities. The net position component, "net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The balance of net position is reported as unrestricted.

### Note 1 - Summary of Significant Accounting Policies (continued)

**Net Position Flow Assumptions** - In order to report net position as a restricted - net position and an unrestricted - net position in the government-wide and proprietary fund financial statements, the City has established a flow assumption policy. It is the City's policy to use restricted - net position first before using unrestricted - net position.

*Operating Revenues and Expenses* - Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for services for water and sewer. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

**Contributions of Capital** - Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets, tap in fees to the extent they exceed the cost of the connection to the system, or from grants or outside contributions of resources restricted to capital acquisition and construction.

Interfund Activity - Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses section in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements (i.e., they are netted).

Transfers between governmental and business-type activities on the government-wide statement of activities are reported as general revenues. Transfers between funds reported in the governmental activities column are eliminated. Transfers between funds reported in the business type activities column are eliminated.

**Estimates** - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**New Accounting Pronouncements - Adopted -** In June 2017, GASB issued Statement No. 87, Leases. This statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and deferred inflow of resources, for leases that previously were classified as operating leases and recognized as inflows or outflows of resources based on the payment provisions of the contract.

The remainder of this page is intentionally left blank.

### Note 2 – Stewardship, Compliance and Accountability

### **Budgetary Information**

The City adopts an annual operating budget for the general fund, capital projects fund and the special revenue fund. The budget resolution reflects the total of each department's appropriation in each fund.

The general, capital projects and special revenue fund's budgets are adopted on a basis consistent with GAAP.

The legal level of control (the level at which expenditures may not legally exceed appropriations) for each adopted annual operating budget generally is the department level within each individual fund. Any change in total to a fund or departmental appropriation within a fund requires approval of the City Council.

Transfer of budget amounts can occur within departments. All unexpended annual appropriations lapse at year-end.

### Note 3 - Restatement for Change in Accounting Principle

Pursuant to the adoption of GASB Statement No. 87 (see Note 1), the City is required to reevaluate the accounting treatment of leases. The new standard requires that the following restatement be made to account for the right to use leased assets and the commitment to make future lease payments existing at the beginning of the year.

		Governmental Activities Net Position
As previously stated	\$	5,436,191
Right to use leased assets, June 30, 2021		12,170
Accumulated amortization		(3,081)
Lease liability	-	(12,170)
As restated	\$	5,433,110

#### Note 4 - Cash and Cash Equivalents

Custodial Credit Risk – Deposits – Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk; however, as of June 30, 2022, the government is not exposed to custodial credit risk.

#### Note 5 - Receivables

Receivables at June 30, 2022, consisted of taxes, intergovernmental, and accounts (billings for user charges).

Receivables and payables are recorded on the City's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectibility.

### Note 6 - Property Taxes

The City Council levies property taxes on or about July 15th of each year. Property taxes attach as an enforceable lien on property as of January 1. Property taxes are usually billed on or about September 15th of each year and are payable within sixty days. The Effingham County Tax Commissioner bills and collects the City's property taxes and City property tax revenues at the fund reporting level are recognized when levied to the extent that they result in current receivables (i.e., collectible in 60 days). For the year ended June 30, 2022, property taxes were levied on August 24, 2021. Property tax bills were mailed on October 15, 2021, and were due December 15, 2021. The lien date was March 11, 2022.

### Note 7 - Capital Assets

Capital asset activity for governmental activities for the year ended June 30, 2022, was as follows:

	6	Balance /30/2021, s Restated		Additions	Deductions		Balance 6/30/2022
Governmental activities: Capital assets not being depreciated: Land Construction in progress	\$	199,901	\$	27,750 1,009,982		\$	227,651 1,009,982
Total capital assets not being depreciated	\$	199,901	_	1,037,732		\$_	1,237,633

The remainder of this page is intentionally left blank.

Note 7 - Capital Assets (continued)

Note 8 - Interfund Balances and Transfers									
Interfund balances at June 30, 2022, consisted General fund receivable from water and s fund	~		s expenses p	aid	by general	\$	796,602		
General fund receivable from SPLOST for	various expenses	paid	by general f	und		\$	5,193		
Water and sewer fund receivable from SI sewer fund	PLOST for vario	us e	xpenses paid	l by	water and	\$	113,350		

### Note 8 - Interfund Balances and Transfers (continued)

Water and sewer fund receivable from construction trust fund for various expenses paid by water and sewer fund	\$ 51,965
Interfund transfers for the year ended June 30, 2022, consisted of the following: SPLOST transfers to water and sewer fund for water and sewer capital additions	\$ 138,650
Construction trust fund transfers to water and sewer fund for allowable waste water treatment plant development expenditures	\$ 81,184
Water and sewer fund transfers to debt service trust fund in accordance with bond covenant to ensure necessary amounts are on hand to make debt service payments	\$ 1,800

### Note 9 - Deferred Inflows and Deferred Outflows of Resources

In addition to assets, the financial statements of the City will sometimes report a separate section for deferred outflows of resources. This separate element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources in the form of expenditures until that time. Deferred charges on the refunding of bonds are reported in this category in the proprietary fund statement of net position and the government-wide statement of net position. Additionally, the differences between expected and actual experience and changes in assuptions related to pensions and the contributions made to the pension plan after the measurement date qualify for reporting in this category in the government-wide statement of net position.

In addition to liabilities, the financial statements of the City will sometimes report a separate section for deferred inflows of resources. This separate element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources in the form of revenue until that time. The portion of property taxes that are not available for use (not received within 60 days subsequent to year end) are reported as deferred inflows of resources in the governmental funds balance sheet. This element is not present in the government-wide statement of net position. The changes in assumptions, the net difference between projected and actual earnings on investments and the difference between expected and actual experience related to pensions are the only items the City has that qualify for reporting in this category in the government-wide statement of net position for governmental activities.

The remainder of this page is intentionally left blank.

### Note 10 - Long-Term Liabilities

### **Governmental Activities**

### **General Obligation Debt**

General obligation debt at June 30, 2022, is comprised of an intergovernmental agreement between the City and Effingham County under which the County advanced funds to the City to cover its TSPLOST projects. The advance is to be repaid over the life of the TSPLOST revenue collection period first from TSPLOST revenues and then to the extent necessary, by the general revenues of the City. Semi-annual payments from December 1, 2021, through June 1, 2026, include interest at 0.793%.

As of June 30, 2022, debt service requirement to maturity are as follows.

Year	Principal	Interest		Total
2023	\$ 260,505	\$ 8,421	\$	268,926
2024	263,891	6,356		270,247
2025	267,089	4,263		271,352
2026	270,474	2,145		272,619
Total	\$ 1,061,959	\$ 21,185	\$	1,083,144

**Leases** - The City has entered into various lease agreements for the rights to use various pieces of office equipment. As the arrangements meet the criteria of a lease under GASB Statement No. 87, adopted in the current year (see Note 1), they are required to be recorded as intangible right to lease assets and lease liabilities. The right to lease assets are amortized over the lease terms which are shorter than the useful lives of the underlying assets and the City is not taking ownership of the underlying assets.

Lease payable to Pitney Bowes in equal quarterly payments of approximately \$192, including imputed interest at 1.46%. This asset will be amortized over the lease term of five years. There are no residual value guarantees in the lease provisions. A summary of the principal and interest amounts for the remaining lease is as follows:

Year	_ Pr	Principal		Principal Interest			Total
2023	\$	751	\$	15	\$ 766		
2024		387		3	390		
Total	\$	1,138	\$	18	\$ 1,156		

The remainder of this page is intentionally left blank.

### Note 10 - Long-Term Liabilities (continued)

Lease payable to GreatAmerica Financial Services Corporation in equal monthly payments of approximately \$67, including interest at 1.69%. This asset will be amortized over the lease term of four years. There are no residual value guarantees in the lease provisions. A summary of the principal and interest amounts for the remaining lease is as follows:

Year	Pr	rincipal	I	nterest	Total		
2023	\$	799	\$	12	\$	811	
2024		674		3		677	
Total	\$	1,473	\$	15	\$	1,488	

Lease payable to GreatAmerica Financial Services Corporation in equal monthly payments of approximately \$220, including interest at 0.89%. This asset will be amortized over the lease term of four years. There are no residual value guarantees in the lease provisions. A summary of the principal and interest amounts for the remaining lease is as follows:

Year	P1	rincipal	Ir	nterest	Total		
2023	\$	2,602	\$	38	\$	2,640	
2024		2,625		15		2,640	
2025		220				220	
Total	\$	5,447	\$	53	\$	5,500	

### **Business Type Activities**

#### Water & Sewer Refunding and Improvement Revenue Bonds, "Series 2011 Bonds"

Issued on August 25, 2011, in the amount of \$9,565,000 for the refunding of all outstanding water and sewer related bonds and the construction of a waste water treatment facility. The bonds have maturity dates ranging from March 1, 2012, to March 1, 2041, in varying amounts. Interest is payable at varying rates ranging from 2.0% to 4.8% based on bond maturity. The bonds are secured by direct revenues of the water/sewer system.

**Bond refunding** - All of the Series 2011 Bonds were advance refunded on February 23, 2017, with Series 2017 bonds because of the decrease in interest rates.

### Water and Sewer Refunding Revenue Bonds, Series 2017

Issued on February 23, 2017, in the amount of \$8,845,000 for the advance refunding of the remaining Series 2011 bonds. See Note 11 for further information of the refunding of bonds. The bonds have maturity dates ranging from March 1, 2016, through March 1, 2041, in varying amounts. Interest is payable at varying rates ranging from 2.0% to 4.0% based on bond maturity. The bonds were issued at a premium of \$596,870 which, net of accumulated amortization of \$235,992, is reported in the statement of net position at a value of \$360,878. The bonds are secured by direct revenues of the water/sewer system.

Note 10 - Long-Term Liabilities (continued)

As of June 30, 2022, debt service requirement to maturity are as follows.

Year	Principal	Interest	Total
2023	\$ 165,000	\$ 324,150	\$ 489,150
2024	230,000	320,850	550,850
2025	255,000	315,675	570,675
2026	310,000	305,475	615,475
2027	370,000	293,075	663,075
2028-2033	2,100,000	1,230,175	3,330,175
2034-2038	2,550,000	775,375	3,325,375
2039-2041	2,425,000	230,625	2,655,625
Total	\$ 8,405,000	\$ 3,795,400	\$ 12,200,400

**Changes in Long-term Debt** - Changes in the City's long-term obligations consisted of the following for the year ended June 30, 2022:

	6	Outstanding 5/30/2021, as Restated		Additions	R	eductions	_	Outstanding 6/30/2022		nounts due one year
Governmental activities										
General obligation debt										
Notes payable			\$	1,316,634	\$	254,675	\$	1,061,959	\$	260,505

& Improvement Bonds -										
"Series 2017 Bonds"	\$	8,545,000			\$	140,000	\$	8,405,000	\$	165,000
Compensated absences		338	\$	2,293		1,867		764		764
Total business-type	•		Ψ_		_	1,007		, , ,		,
activities	\$	8,545,338	\$	2,293	\$	141,867	\$	8,405,764	\$	165,764
activities	Ψ	0,575,550	Ψ	2,273	Ψ	171,007	Ψ	0,702,707	Ψ	103,704

Principal and interest payments related to the City's water and sewer bonds are financed from income derived from the operation of the water and sewer system.

### Note 10 - Long-Term Liabilities (continued)

The compensated absences liability will be paid from the fund from which the employee's salaries are paid. Generally, the compensated absences liability has been liquidated by the general fund and the water and sewer fund in the prior year.

Total interest incurred (all of which was charged to operations) in the government-wide financial statements amounted to \$12,952 for governmental activities and \$307,155 for business-type activities.

#### Note 11 - Refunding of Bonds

On February 23, 2017, the City issued City of Guyton Water and Sewer Refunding Revenue Bonds, Series 2017, in the amount of \$8,845,000, with interest rates ranging between 2.00% and 4.00%. The City used the bonds to advance refund the Series 2011 bonds, with interest rates varying from 2.0% to 4.80%. The City deposited the net proceeds in an irrevocable trust to purchase U.S. government securities to provide for all future debt service on the aforementioned bond series. As a result, the refunded bonds are considered defeased, and the City has removed the liability from its accounts. The outstanding principal of the defeased bonds is \$8,810,000 at June 30, 2022.

#### Note 12 - Pension

#### General Information About the Pension Plan

**Plan Description** - All full-time city employees are eligible to participate in the Georgia Municipal Employees Benefit System (GMEBS) which is an agent multiple employer defined benefit plan administered by the Georgia Municipal Association which acts as a common investment and administrative agent for its participating member employers. Benefit provisions under the plan are established by state statute and an adoption agreement executed by City Council. The Georgia Municipal Association issues a publicly available annual report that includes financial statements and required supplementary information for the Georgia Municipal Employees Benefit System Retirement Trust. That report may be obtained by writing to Georgia Municipal Association, 201 Pryor Street, SW, Atlanta, Georgia, 30303.

**Benefits Provided** - GMEBS provides retirement, disability benefits and death benefits to plan members and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with 5 years of total service are eligible to retire at age 65 and with ten years of total service are eligible to retire at age 55 with full benefits.

The remainder of this page is intentionally left blank.

### Note 12 - Pension (continued)

*Employees Covered* - At June 30, 2022, the following employees were covered by the benefit terms for the plan:

Inactive employees or beneficiaries currently receiving benefits	5
Inactive employees entitled to but not yet receiving benefits	7
Active employees	7
Total	19

**Contributions** - The City's employee's participation is noncontributory. The City is subject to minimum standards of the Public Retirement Systems Standards Law (Georgia Code Section 47-20-10). Policy set by the City for contributing the annual pension expense exceeds the minimum requirements. Employer contribution rates are determined on an annual basis by the actuary and shall be effective on the July 1 following the notice of a change in the rate.

The annual minimum contribution is the sum of 1) the normal cost (including administrative expenses), 2) the closed level dollar amortization of the unfunded actuarial accrued liability over a period that ranges from 10 to 30 years based on the funding policy adopted by the GMEBS Board of Trustees, and 3) interest on these amounts from the valuation date to the date contributions are paid (assumed monthly). The City's contributions to the plan were \$6,979 for the year ended June 30, 2022.

### **Net Pension Liability**

Valuation date

Net investment rate of return

The City's net pension liability (NPL) for the plan is measured as the total pension liability (TPL), less the pension plan's fiduciary net position (FNP). The net pension liability of the plan is measured as of September 30, 2021, using an annual actuarial valuation as of January 1, 2022. a summary of principal assumptions and methods used to determine the net pension liability is shown below.

January 1, 2022

	<i>J</i> , -
Measurement date	September 30, 2021
Actuarial cost method	Projected Unit Credit
Amortization method	Closed level dollar for remaining unfunded liability
Remaining amortization period	Remaining amortization period varies for the bases, with a net
	effective amortization period of ten years.
Asset valuation method	Sum of actuarial value at beginning of year and the cash flow
	during the year plus the assumed investment return, adjusted
	by 10% of the amount that the value exceeds or is less than the
	market value at end of year. The actuarial value is adjusted, if
	necessary, to be within 20% of market value.
Discount rate	7.375%
Inflation rate	2.25%

7.375%

### Note 12 - Pension (continued)

Projected salary increase 2.25% plus service based merit increases

Cost of living adjustments Not applicable Postretirement benefit increase Not applicable

The underlying mortality assumptions and all other actuarial assumptions used in the January 1, 2022, valuation were based on the results of an actuarial experience study for the period July 1, 2015, through June 30, 2019. Further details of the experience study can be obtained by contacting the Georgia Municipal Association.

**Discount Rate** - The discount rate used to measure the total pension liability was 7.375%. The discount rate remained unchanged since the prior measurement date. The projection of cash flows used to determine the discount rate assumed that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2021 (see the discussion of the pension plan's investment policy) are summarized in the following table.

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Domestic equity	45%	6.55%
International equity	20%	7.30%
Domestic fixed income	20%	0.40%
Real estate	10%	3.65%
Global fixed income	5%	0.50%
Cash	0%	
Total	100%	

Note 12 - Pension (continued)

### **Changes in Net Pension Liability**

The changes in the Net Pension Liability for the plan are as follows:

	Total Pension Liability		Fiduciary Net Position		Net Pension Liability/ (Asset)	
Balances as of September 30, 2020	\$_	525,437	\$_	637,740	\$_	(112,303)
Changes for the year:						
Service cost		14,768				14,768
Interest		38,436				38,436
Differences between expected and actual experience		41,839				41,839
Contributions - employer				4,485		(4,485)
Net investment income				152,477		(152,477)
Benefit payments		(38,068)		(38,068)		0
Administrative expense				(4,701)		4,701
Net changes	_	56,975	_	114,193	_	(57,218)
Balances as of September 30, 2021	\$_	582,412	\$_	751,933	\$_	(169,521)

Sensitivity of the Net Pension Liability (Asset) to changes in the discount rate is as follows:

		Discount		
19	% Decrease	Rate	19	% Increase
	(6.375%)	(7.375%)	(	(8.375%)
\$	(112,825)	\$ (169,521)	\$	(217,809)

The remainder of this page is intentionally left blank.

Note 12 - Pension (continued)

### Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

For the year ended June 30, 2022, the City recognized negative pension expense of \$9,421. At June 30, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions as follows:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
		- CBC GI CCB		
Differences between expected and actual experience	\$	29,846	\$	(7,602)
Pension contributions subsequent to measurement date		4,699		
Changes of assumptions		4,740		
Net difference between projected and actual earnings on				
pension plan investments				(84,829)
Total	\$	39,285	\$	(92,431)

\$4,699 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of net pension liability in the year ended June 30, 2023. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year ended	
June 30:	
2023	\$ (9,112)
2024	(3,336)
2025	(24,026)
2026	(21,371)
	\$ (57,845)

The remainder of this page is intentionally left blank.

## City of Guyton, Georgia Notes to Basic Financial Statements For the Year Ended June 30, 2022

#### Note 13 - Net Investment in Capital Assets

Net investment in capital assets on the government-wide statement of net position as of June 30, 2022, are as follows:

	Governmental Activities	Business Type Activities
Cost of capital assets	\$ 5,279,388	\$ 16,337,619
Less accumulated depreciation	2,200,057	4,065,166
Book value	3,079,331	12,272,453
Less capital related debt		
Total debt	1,070,017	8,405,000
Less unspent debt proceeds	(685,833)	(350,931)
Total capital related debt	384,184	8,054,069
Less other capital related liabilities	944,330	43,609
Net investment in capital assets	\$ <u>1,750,817</u>	\$ 4,174,775

#### Note 14 - Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; and errors or omissions; and workers compensation for which the City carries the following insurance coverages.

The City joined the Georgia Interlocal Risk Management Agency (GIRMA). Insurance coverage and deductible options for property, casualty and crime under the policy are selected by the City's management based on the anticipated needs. The City is required to pay all premiums, applicable deductibles and assessments billed by GIRMA, as well as following loss reduction and prevention procedures established by GIRMA. GIRMA's responsibility includes paying claims, and representing the city in defense and settlement of claims. GIRMA's basis for estimating the liabilities for unpaid claims is "IBNR" established by an actuary. The City has not compiled a record of claims paid up to the applicable deductible for the prior year or the current fiscal year. The City is unaware of any claims for which the City is liable (up to the applicable deductible) which were outstanding and unpaid at June 30, 2022. No provisions have been made in the financial statements for the year ended June 30, 2022, for any estimate of potential unpaid claims.

The remainder of this page is intentionally left blank.

## City of Guyton, Georgia Notes to Basic Financial Statements For the Year Ended June 30, 2022

#### Note 14 - Risk Management (continued)

The City has elected to be a member of the Georgia Municipal Association Workers' Compensation Self-Insurance Fund (the Fund). As a participant in the Fund, the City has no legal obligation to pay its own workers' compensation claims. The City is required to make an annual contribution to the Fund in an amount that is determined on the basis of actuarial projections of losses. With payment of the City's annual contribution, the City has effectively transferred the risk and responsibility for payment of its workers' compensation claims. However, the enabling statute creating the Fund permits the Fund to levy an assessment upon its members to make up any deficiency the Fund may have in surplus or reserves. No amount has been recorded in the financial statements for this contingency as management believes the likelihood for assessment is remote.

#### Note 15 - Commitments

The City had contractual commitments at June 30, 2022, of approximately \$120,000 for various road construction projects. Future appropriations will fund these commitments as work is performed.

#### Note 16 - Contingent Liabilities

**Federal Grant Audits** - The City has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could result in a request for reimbursement to the grantor agency for costs disallowed under terms of the grant. Based on prior experience, the City believes such disallowances, if any, will be immaterial.

#### Note 17 - Joint Ventures

Under Georgia law, the City, in conjunction with other cities and counties in the coastal Georgia area, is a member of the Coastal Regional Commission of Georgia (CRC) and is required to pay annual dues thereto. Membership in an RDC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the CRC in Georgia. The CRC board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a CRC. Separate financial statements may be obtained from Coastal Regional Commission of Georgia, 1181 Coastal Drive SW, Darien, GA 31305.

#### Note 18 - Subsequent Events

Subsequent events have been evaluated by management through December 30, 2022, which is the date the financial statements were available to be issued.

#### City of Guyton, Georgia

# City of Guyton, Georgia Notes to the Required Supplementary Information Budget to Actual Comparisons For the Year Ended June 30, 2022

#### Note 1 - Budgetary Information

The City adopts an annual operating budget for the general fund, each special revenue fund, and each capital projects fund.

The legal level of control (the level at which expenditures may not legally exceed appropriations) for each adopted annual operating budget generally is the department level within each individual fund.

The City Manager may approve budget transfers within departments. Any changes to a fund total or departmental appropriation within a fund requires approval of the City Council. During the year, the City Council approved one budget revision which affected governmental funds.

All unexpended annual appropriations lapse at year-end.

All budgets are adopted on a basis consistent with GAAP with the exception that on the budgetary basis, payments for debt service on long-term debt, including leases (i.e, \$4,218 for the general fund), are budgeted within the functions but are reported as separate character classifications on the GAAP basis. The reconiliation to the Schedule of Revenue, Expenditures, and Changes in Fund Balance is as follows:

	Financi Stateme		Budgetary Adjustment		Budget
General fund					
General government - Administration	\$ 349,6	28 \$	3,407	\$	353,035
Public safety - Police	611,1	70	811		611,981

#### **Notes to Schedule of Contributions**

- \* 2022 information will be determined after fiscal year end and will be included in 2023 reporting.
- \*\* Contributions are recorded based on date of receipt into the GMEBS trust. Minor timing issues in receipt of monthly payments are not indicative of non-compliance with GMEBS funding policy. A plan is in compliance with the GMEBS funding policy if it pays either the dollar amount or the percentage of employee-covered payroll of the actuarially determined contributions.
- \*\*\* 2021 covered payroll is based on data collected as of September 30, 2020, for the 2021 actuarial valuation.

The City implemented GASB 68 for the fiscal year ended June 30, 2015. In time this schedule will present the required ten years of data.

The remainder of this page is intentionally left blank.

#### Notes to Schedule of Contributions (continued)

Valuation Date The actuarially determined contribution rate was determined as of January 1, 2022, with an interest adjustment to the fiscal year.

Contributions in relation to this actuarially determined contribution rate will be reported for the fiscal year ending June 30, 2023.

Methods and Assumptions Used to Determine Contribution Rates
Actuarial cost method Projected Unit Credit

Amortization method Closed level dollar for remaining unfunded liability

Remaining amortization period N/A

Asset valuation method Sum of actuarial value at beginning of year and the cash flow during the year plus the assumed investment return, adjusted by 10% of

the amount that the value exceeds or is less than the market value at end of year. The actuarial value is adjusted, if necessary, to be

within 20% of market value.

Salary increases 2.25%, plus service based merit increases

Investment rate of return 7.375% Cost of Living Adjustments 0.00%

Retirement age Retirement rates are adjusted to closely reflect actual experience

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the City Council City of Guyton, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Guyton, Georgia, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise City of Guyton, Georgia's basic financial statements, and have issued our report thereon dated December 30, 2022.

#### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Guyton, Georgia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Guyton, Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Guyton, Georgia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be

material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

#### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether City of Guyton, Georgia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
